Financial Theory and Corporate Policy/

Financial Theory and Corporate Policy Therefore, we will continue to emphasize our original objectives for the book. Primarily, our aim is to provide a bridge to the more theoretical articles and treatises on finance theory. For doctoral students the book provides a framework of conceptual knowledge, enabling the students to understand what the literature on financial theory is trying to do.

Macroeconomics I: Part I

The goal of the class is to make students familiar with heterogeneous agent macroeconomic models and models with search frictions. Most of the class covers methods and theory. We will also talk about how to connect economic theory to micro data. Specific topics will be dynamic programming, models of overlapping generations, and frictional labor.

Introduction to Macroeconomics Lecture Notes

These assumptions are used in order to build macroeconomic models. Typically, such models have three aspects: the 'story', the mathematical model, and a

graphical representation. Macroeconomics is 'non-experimental': like, eg, history, macro-economics cannot conduct controlled scientific experiments (people would complain about such experiments, and with a good reason) and focuses.
